EDUCATION

California State University, Fullerton
Bachelor of Science, Computer Science
Fullerton, CA · December 2025

SKILLS

AI & Concepts
Claude API, Prompt Engineering, AI-Assisted Development, Scikit-Learn, Data Analytics, Attribution Modeling, SaaS Architecture, Responsive Design
Tools
Git, GitHub, Vite, Cursor, Claude Code
Data & Infra
SQL, Supabase (Postgres), Vercel, Render, Stripe, RevenueCat, DNS / Email Auth (SPF, DKIM, DMARC)
Front End
React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Framer Motion
Back End
Python, FastAPI, C++, REST API Design & Integration

SIM RACING

Competing since 2012 · \$120K+ career earnings
2× Champion eNASCAR College iRacing Series
3× Race Winner eNASCAR Coca-Cola iRacing Series
Raced for driver-owned esports teams including Kligerman Burton Esports (Parker Kligerman) and William Byron Esports (William Byron), plus eRacR.
Competed under sponsorship from Valvoline and Logitech G.
Ran live simulator training for professional NASCAR drivers during FOX broadcast events.

Logan
Clampitt

Full-Stack Developer · AI Integration

EXPERIENCE

- Software Developer**, CT Realty Trust — *August 2025 – Present*
White Oaks at Wilton · property management platform · whiteoakswilton.com
- Designed and shipped a full property management platform: a public leasing site and an operator analytics console on a FastAPI and Supabase backend, deployed across Vercel and Render.
 - Built a first-party analytics pipeline from scratch, handling visitor identity, lead attribution, and bot filtering with results computed live for the console.
 - Integrated the Rent Manager API for live pricing and automated lead-to-prospect creation, with caching and rate-limit handling to protect the account.
- Freelance Software Developer** — *2025 – Present*
- Deliver contract full-stack and iOS builds via Contra and Upwork, shipping production React, Next.js, and FastAPI apps end to end.

PROJECTS

- White Oaks at Wilton** Next.js, TypeScript, FastAPI, Supabase — *Live 2026*
Property Management Platform · whiteoakswilton.com
Languages TypeScript, Python, SQL **Frontend** React / Next.js, Tailwind **Backend & Data** FastAPI, Supabase (Postgres) **AI** Claude API **Integrations** Rent Manager API, Resend **Infra** Vercel, Render
- Shipped a live leasing site and private analytics console, with a self-contained pipeline tracking visitors, lead sources, and live metrics — no third-party warehouse.
 - Wired the site into Rent Manager and Resend for automated prospects and lead alerts from the property’s own domain.
- MacroVault** React, JavaScript, Supabase, Python — *September 2025*
Full-Stack Fitness SaaS
- Built a full-stack fitness app with free and paid tiers, gating the planner, dashboards, and charts behind Stripe.
 - Added an AI meal suggestion feature using the Claude API to recommend meals against remaining daily macros.
 - Currently building the native iOS version.
- PulseLock** Swift, SwiftUI, HealthKit, RevenueCat — *May 2026*
Native iOS & watchOS App
- Shipped a native iOS and watchOS App Store app that locks distracting apps until an Apple Watch verifies a real workout.
 - Solved background heart-rate tracking and reliable app re-locking on DeviceActivity, HealthKit, and HKWorkoutSession.
 - Handled RevenueCat subscriptions and the full App Store submission, from privacy labels to product setup.
