EDUCATION

California State University, Fullerton | Fullerton, CA

December 2025

Bachelor of Science, Computer Science

TECHNICAL SKILLS

Front End: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Back End: Python, FastAPI, C++

Tools & Platforms: Git, GitHub, Vercel, Supabase, Stripe, Cursor, Claude

Concepts: Responsive Design, Component-Based Architecture, REST APIs, UI/UX Principles, SaaS Architecture

AI & Data: AI-Assisted Development, Claude API, Scikit-Learn, SQL, Data Analysis

EXPERIENCE

Independent Market Analyst | Self-Employed

December 2024 - Present

Futures Trading

- Apply data analysis and probability principles to evaluate futures market behavior.
- Use strict risk management and rule-based strategies to make real-time decisions under uncertainty.
- Track performance metrics, drawdowns, and outcomes to continuously refine strategy.
- Achieved multiple funded account payouts through disciplined execution and compliance.

PROJECTS

MacroVault | React, Javascript, Supabase, Python | Full-Stack Fitness SaaS

September 2025

- Built a full-stack fitness analytics SaaS with Free/Pro tier billing via Stripe, including subscription gating for goal planner, macro dashboards, and progress charts.
- Integrated the Claude API to power an AI meal suggestion feature that generates personalized meal ideas based on remaining daily macros.
- Leveraged AI-assisted development workflows to accelerate feature delivery across a 10+ page application.

Portfolio Website | React, Vite, HTML, CSS | Personal Project

February 2025

- Designed and developed a responsive personal portfolio to showcase projects, skills, and experience.
- Focused on clean design, fast load times, and mobile-first layouts.
- Deployed with a custom domain and live project demos using Vercel.

Connect 4 AI | Python, Pygame | Artificial Intelligence

November 2025

- Built a Connect 4 game with an AI opponent using search-based algorithms.
- Implemented game logic, UI components, and performance optimizations.

SIM RACING ACHIEVEMENTS

- **2x Runner-up**, eNASCAR Coca-Cola iRacing Series (top-tier professional esports league)
- **2x Champion**, eNASCAR College iRacing Series
- Provided simulation training for professional NASCAR drivers during COVID-19 for FOX broadcast events
- Competed at the highest level of competitive sim racing, demonstrating focus, consistency, and performance under pressure
